## MEDIA STATEMENT

### Department of Water and Sanitation to host a high school career day

09 May 2019

The Department of Water Sanitation in KwaZulu-Natal (DWS KZN) will be hosting a high school career day on Friday 10 May 2019 at Waterloo Community Hall in Durban.

The high school career day aims to inform high school learners about valuable knowledge to make educated decisions regarding their future through presentations, discussions and an exhibition. They will also gain insight and career advice from leading field specialists to better understand the expectations and roles of their potential professions.

The career day will give learners an up close and personal view of a selection of occupations especially the ones they have never heard of. It will broaden their perspectives to the most interesting jobs such as Computers & Technology, Environmental Sciences, and Business Management etc.

High school learners will get an opportunity to learn what skills and education are required for the industries and fields they have interest in and potential aptitude for. They will also have the opportunity to ask questions.

During the career day, learners will also be able to meet with representatives from universities, FET colleges and other tertiary institutions to determine which programmes best meet their needs.
