WRC ~ Water Research Commission

International Conference and Exhibition on Water in the Environment

20-22 February 2006 ~ Stellenbosch, South Africa
 First Announcement & Call for Papers

enviroWater

Introduction

Water Resources Management is a challenge to many countries, especially those with limited resources. Many aspects must be considered to supply people with clean water and to guarantee the water quality. Continuous improvement of water (drinking water as well as wastewater) treatment technologies and the results of R&D must be transferred to real applications.

This conference will be an effective tool to organise the exchange of know-how locally, but also an opportunity for contributions and co-operation from international water experts.

Call for Papers/Posters

We would like to invite you to submit abstracts in any of the below mentioned themes or related areas for oral or poster presentations:

- ⇒ Protection of Water Resources (IWRM – Integrated Water Resource Management)
- ⇒ Production and Treatment of Drinking Water
- ⇒ Wastewater Treatment
- ⇒ Water: Chemistry, Analysis, Microbiology
- ⇒ Water Business Management: Finance and Organisation
- ⇒ Health Aspects and Social Aspects of Water

Oral papers will be allocated 20 minutes (including 5 minutes discussion). Poster papers will be provided with suitable presentation space (90 x 180 cm). Abstracts should be submitted online at our website <http://www.enviroWater.de> or by e-mail to fischer@enviroWater.de. The abstract should include the study objectives, results and tentative conclusions.

Invited Speakers

Each session will be opened and chaired by invited experts in the specific session theme.

Call for Exhibitors and Sponsors

Companies/consultants involved in production, treatment, management or analysis of water or waste-water, environmental protection, environmental impact assessment and other environmental issues together with instrument manufactures, scientific suppliers and publishers are invited to support the conference by advertising in brochures, renting exhibition space and/or sponsoring social events. All sponsors in cash or kind will be acknowledged in the conference programme and during the meeting.

Short Courses

The following short courses will be organized:

- ⇒ Modern Applied Statistics and Chemometrics with 'R' (2-3 days)
- ⇒ Education in Water (1 day)
- ⇒ Modern Water Analysis (1 day)

Additional post conference short courses/workshops on various topics are planned. Details will be provided in the 2nd Announcement and in the internet web pages.

Official Language

The official language of the conference will be English and will be used in all correspondence, presentations and publications.

Venue of the Conference

The conference will be held at the **Protea Hotel** Stellenbosch, Techno Park, Techno Avenue, Stellenbosch, South Africa. Situated in the heart of the wine-lands, in one of the most beautiful and heritage-conscious towns in Southern Africa, the hotel provides besides state-of-the-art conference rooms also accommodation for the delegates (176 rooms in different categories).

Conference Fee

The registration fee is US \$600 for all delegates. The fee covers the entry to the conference and exhibition, conference material (abstracts), tea and coffee during tea breaks, daily lunches and the formal conference dinner. Daily tickets will be available at US \$200 (does not include the conference dinner). Substantial discounts up to 40% will be given to all speakers and companies sponsoring more than three delegates. Students' fees are US \$150 (does not include the conference dinner)

Deadlines

Submission of abstracts for oral/poster presentations **15 August 2005**

Notification of the authors **01 October 2005**

Submission of the full papers..... **15 January 2005**
