

WMS IMPLEMENTATION PROCEDURE FOR ALL RELEASES

Depending on what is released, follow the various steps below.
All steps to be followed if it is a full release.

Activities	
Responsibility	Procedure Activities
	Monitoring Management
Head Office Network Controller	1. Create directory H:\WMSUpdates\Release<release_date>MM (eg H:\WMSUpdates\Release 20071004\MM)
Development Team	2. Copy the MONMAN.ecf file and any new or updated *.DLL files into the directory H:\WMSUpdates\Release<release_date>MM
Head Office Network Controller	3. Create a directory vol1:\APP\WMSUpdates\Release<release_date>WRM on each regional server 4. Copy the contents of the H:\WMSUpdates\Release<release_date>MM directory onto all the required regional file servers to the directory: vol1:\APP\WMSUpdates\Release<release_date>MM
Head Office Network Controllers	5. Load the files from the : vol1:\APP\WMSUpdates\Release<release_date>MM directory into the vol1:\APP\wms_live\mm directory on each regional server.
Head Office Network Controller	6. Load the contents of the H:\WMSUpdates\Release<release_date>\mm directory onto sys:\app\wms_live\mm on the Head Office server 7. Load the contents of the H:\WMSUpdates\Release<release_date>\mm directory onto d:\app\wms_live\mm on the Internal WinTerm server (wmsts.dwaf.gov.za) at HQ.

Water Resource Management	
Head Office Network Controller	<p>8. Create a directory H:\WMSUpdates\Release<release_date>\WRM (eg H:\WMSUpdates\Release 20071004\WRM)</p> <p>9. Create an exception to allow the copy of *.exe and *.bat files to the above directory.</p>
Development Team	<p>10. Copy all the files to be released to the directory : H:\WMSUpdates\Release<release_date>\WRM</p> <p>11. Copy InventoryDet.dot and Statistics.dot to H:\WMSUpdates\Release<release_date>\WRM\Report_Template</p>
Head Office Network Controller	<p>12. Create a directory vol1:\APP\WMSUpdates\Release<release_date>\WRM on each regional server.</p> <p>13. Create a filescreen exception to allow the copy of *.exe and *.bat files to the WMSUpdates directory on each regional server.</p> <p>14. Copy the contents of the H:\WMSUpdates\Release<release_date>\WRM directory onto all the required regional file servers to the directory : vol1:\APP\WMSUpdates\Release<release_date>\WRM</p> <p>15. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the WMSUpdates directory on each regional server.</p>
Head Office Network Controller	<p>16. Create a filescreen exception to allow the copy of *.exe and *.bat files to the vol1:\app\wms_live directory on each regional server.</p> <p>17. Copy the files from the : vol1:\APP\WMSUpdates\Release<release_date>\WRM directory into the vol1:\APP\wms_live\WRM directory on each regional server.</p> <p>18. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the vol1:\app\wms_live directory on each regional server.</p>
Head Office Network Controller	<p>19. Create a filescreen exception to allow the copy of *.exe and *.bat files to the sys:\app\wms_live directory on Head Office server</p> <p>20. Load the contents of the H:\WMSUpdates\Release<release_date>\wrm directory onto sys:\app\wms_live\wrm on the Head Office server</p> <p>21. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the sys:\app\wms_live directory on Head Office server</p> <p>22. Load the contents of the H:\WMSUpdates\Release<release_date>\WRM directory onto D:\APP\WMS_Live\WRM on the Internal WinTerm server (wmsts.dwaf.gov.za) at HQ.</p>

Geographical Information Systems (GIS)	
Head Office Network Controller	<p>23. Create a directory H:\WMSUpdates\Release<release_date>\GIS (eg H:\WMSUpdates\Release 20071004\GIS)</p> <p>24. Create an exception to allow the copy of *.exe and *.bat files to the above directory.</p>
Development Team	<p>25. Copy all the files to be released to the directory : H:\WMSUpdates\Release<release_date>\GIS</p>
Head Office Network Controller	<p>26. Create a directory vol1:\APP\WMSUpdates\Release<release_date>\GIS on each regional server.</p> <p>27. Create a filescreen exception to allow the copy of *.exe and *.bat files to the WMSUpdates directory on each regional server.</p> <p>28. Copy the contents of the H:\WMSUpdates\Release<release_date>\GIS directory onto all the required regional file servers to the directory : vol1:\APP\WMSUpdates\Release<release_date>\GIS</p> <p>29. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the WMSUpdates directory on each regional server.</p>
Head Office Network Controller	<p>30. Create a filescreen exception to allow the copy of *.exe and *.bat files to the vol1:\app\wms_live directory on each regional server.</p> <p>31. Copy the files from the : vol1:\APP\WMSUpdates\Release<release_date>\GIS directory into the vol1:\APP\wms_live\GIS directory on each regional server.</p> <p>32. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the vol1:\app\wms_live directory on each regional server.</p>
Head Office Network Controller	<p>33. Create a filescreen exception to allow the copy of *.exe and *.bat files to the sys:\app\wms_live directory on Head Office server</p> <p>34. Load the contents of the H:\WMSUpdates\Release<release_date>\gis directory onto sys:\app\wms_live\gis on the Head Office server</p> <p>35. Revoke the filescreen exception to allow the copy of *.exe and *.bat files to the sys:\app\wms_live directory on Head Office server</p> <p>36. Load the contents of the H:\WMSUpdates\Release<release_date>\GIS directory onto D:\APP\WMS_Live\GIS on the Internal WinTerm server (wmsts.dwaf.gov.za) at HQ.</p>

Help and Procedure Manual	
Head Office Network Controller	37. Create a directory H:\WMSUpdates\Release<release_date>\HELP (eg H:\WMSUpdates\Release 20071004\HELP)
Development Team	38. Copy the latest " WMS_PROC_MANUAL.PDF " into H:\WMSUpdates\Release<release_date>\HELP 39. Copy the latest "Wms_Help.*" into H:\WMSUpdates\Release<release_date>\HELP
Head Office Network Controller	40. Copy the contents of the H:\WMSUpdates\Release<release_date>\HELP directory onto all the required user file servers to a directory like: vol1:\APPWMSUpdates\Release<release_date>\HELP
Head Office Network Controller	41. Load the files from the : vol1:\APPWMSUpdates\Release<release_date>\HELP directory into the vol1:\APPwms_live\HELP directory on each regional server.
Head Office Network Controller	42. Load the contents of the H:\WMSUpdates\Release<release_date>\HELP directory onto D:\APP\WMS_Live\HELP on the Internal WinTerm server at HQ. 43. Load the contents of the H:\WMSUpdates\Release<release_date>\HELP directory onto D:\APP\WMS_Live\HELP on the Internal WinTerm server (wmsts.dwaf.gov.za) at HQ.

Activities	
Responsibility	Procedure Activities
	MM WEB Data capture tool
Head Office Network Controller	44. Create directory H:\WMSUpdates\WEBRelease<release_date> (eg H:\WMSUpdates\WEBRelease 2013_08_15)
Development Team	45. Copy the WEB-MONMAN.ecf (file and any new or updated *.DLL files into the directory H:\WMSUpdates\WEBRelease<release_date> 46. Copy the latest help files into the directory H:\WMSUpdates\WEBRelease<release_date>\help
Head Office Network Controller	47. Copy the contents of the H:\WMSUpdates\WEBRelease<release_date> directory onto the web server to the directory: d:\wms\monman_web
Head Office Network Controllers	48. Copy the contents of the H:\WMSUpdates\WEBRelease<release_date>\help into the directory " \\dhqwweb101\D:\Program Files\MSE\uniPaaS 1.9\PublishedApplications\MONMAN "
Head Office Network Controller	49. Load the contents of the H:\WMSUpdates\Release<release_date>\mm directory onto sys:\appl\wms_live\mm on the Head Office server 50. Load the contents of the H:\WMSUpdates\Release<release_date>\mm directory onto d:\appl\wms_live\mm on the Internal WinTerm server (wmsts.dwaf.gov.za) at HQ.
